

Mad Science

Spring Break Science Camp

NASA Journey Into Outer Space

Mad Science and NASA have teamed up to bring you the excitement and wonder of space in this new voyage of discovery. See the principles of thrust and propulsion at work as we explore the atmosphere on earth and beyond! Watch star dust burn, and journey through a galaxy as you investigate the life cycle of stars. Explore the farthest reaches of our solar system and create a lunar eclipse in this "mad" planetary tour. Probe the mysteries of meteors and bounce around satellite light as you learn about space phenomena. This is an experience that is truly out of this world!
